Computing Dynamics Limited

Supplier Terms

Version 2026.11.2

Issued 24 November 2026

Some of the services we supply include third-party products whose suppliers require the end customer to accept their terms. Under clause 5 of our General Terms, by accepting an Order the Customer accepts the supplier terms listed below for the products in that Order. Only the terms for products the Customer actually receives apply.

Suppliers update their terms from time to time. The current version is the one published at each link. Supplier terms govern the Customer's relationship with that supplier. They do not change the terms between the Customer and Computing Dynamics, which are set by our General Terms and the Order.
